## STORY

औहना की कहानी इसके वास्तविक जन्म से बहुत पहले एक ऐसे शहर से शुरू हुई जो कि राजधानी दिल्ली से लगभग 200 किलोमीटर दूर है।

अपनी शैक्षणिक गतिविधियों को पूरा करने के उपरान्त धातु के कारखाने में आंशिक रूप से कार्य करते हुए इसके संस्थापक श्री नीरज सहगल के उद्यमशील मन में औहना का बीज अंकुरित हुआ।

The story of Auhna starts much before its actual birth, in a city about 200 miles away from where the name Auhna was first mentioned.

Completion of his academic pursuits, part time experience working as a craftsman in a factory for metal ornaments & full time experience of small scale entrepreneurship, all preceded the birth of Transel Impex (P) Ltd in the life of its founder, Mr. Neeraj Sehgal.

La historia de Auhna comienza mucho antes de su nacimiento real, en una ciudad a unas 200 millas de donde se mencionó por primera vez el nombre Auhna.

La finalización de sus actividades académicas, la experiencia de trabajo a tiempo parcial como artesano en una fábrica de ornamentos metálicos y su experiencia de trabajo a tiempo completo en emprendimientos de pequeña escala fueron los precedentes del nacimiento de Transel Impex (P) Ltd en la vida de su fundador, el Sr. Neeraj Sehgal.

वर्ष 1991 में बेहतर भविष्य का सपना संजोए वह देश की राजधानी दिल्ली आ गए और अपने पूर्वकालीन अनुभव का उपयोग करते हुए उन्होंने ट्रान्सेल इम्पैकस की स्थापना की।

धातु की वस्तुओं की एक छोटी सी कार्यशाला के रूप में शुरू किया गया यह प्रयास श्री सहगल की दूरदर्शिता व आत्मविश्वास के कारण जल्द ही यूरोपीय देशों में पीतल की वस्तुओं के निर्माता के रूप में जाना जाने लगा।

कंपनी को 1994 में एक सुनहरा अवसर प्रदान हुआ जब एक जर्मन उद्योगपति ने हमें अपने OEM के रूप में चुना।

Having moved from his humble hometown of Ludhiana, Punjab to the nation's Capital, Neeraj Sehgal started Transel in the fall of 1991 to capture his vision for a better life.

Started as a small workshop for metal objects, the entrepreneurial spirit of Mr. Sehgal meant that Transel was soon pitching to European brands as a manufacturer for Brass siphons.

Some time in 1994, after the initial years of learning through trial and error, the Company got its first big break when a German customer engaged Transel as an OEM.

Después de mudarse de su humilde ciudad natal de Ludhiana, en Punjab a la capital de la nación, Neeraj Sehgal inició Transel en el otoño de 1991 para reflejar su visión de una vida mejor.

Si bien comenzó como un pequeño taller de objetos metálicos, el espíritu emprendedor del Sr. Sehgal pronto llevó a Transel a hacer propuestas comerciales a marcas europeas como fabricante de sifones de metal.

En algún momento en 1994, después de los años iniciales de aprendizaje mediante prueba y error, la empresa logró su primera gran oportunidad cuando un cliente alemán contrató a Transel como fabricante de equipos originales.

यही भागीदारी व रिश्तों की मजबूती आगे चल कर दो दशकों तक यूरोपीय व अमरीकी कम्पनियों के साथ हमारी भागीदारी की नींव बनी।

समय के साथ चलते हुए ट्रान्सेल ने अपना ध्यान निर्माण की क्षमता बढ़ाने पर केन्द्रित रखा व इसके साथ-साथ अलग-अलग देशों के डिजाइनों व गुणवत्ता मानकों का भी गहन अध्ययन किया।

विभिन्न डिजाईन कम्पनियों के निरन्तर सहयोग ने हमारी डिजाईन क्षमता के विकास का नेतृत्व किया जो कि आज औहना की आधारशिला है।

A relationship that went on to become more meaningful than most, the Company's first partnership in Europe became the blueprint for how we forged all our partnerships across Europe and North America over the next two decades.

As the years went by, Transel maintained a keen focus on expanding manufacturing ability while learning massively from the pinnacle of global design & quality standards.

Continuous collaboration with Companies for product design and production led to the development of in house R&D capabilities which are today the cornerstone of Auhna, a collection of the Company's Bathroom Lifestyle & Drainage offerings.

Esta relación se convirtió en algo más significativo que otras; la primera alianza de la empresa en Europa fue un modelo para la forma en que forjamos todas nuestras asociaciones en Europa y América del Norte en las siguientes dos décadas.

A medida que pasaron los años, Transel mantuvo un fuerte énfasis en expandir la capacidad de fabricación a la vez que aprendía profundamente del pináculo del diseño mundial y los estándares de calidad.

La colaboración constante con empresas para el diseño y fabricación de productos condujo a la creación de capacidades de I&D internas que actualmente son la piedra angular de Auhna, una colección de las propuestas de Baños & Desagües con Estilo de la empresa.

जीवन शैली में सुधार लाने वाले विख्यात निर्माता बनने के उद्देश्य से, औहना बाथरूम व जीवन शैली के अग्रणी उत्पादों का एक ऐसा संग्रह है, जिसके स्तंभ वैश्विक गुणवत्ता मानक, नवीनतम निर्माण कला और अनुसंधान है।

Conceived with a goal to develop products to improve lives, Auhna is a collection of designer Bath & Lifestyle products that seeks to live on the cutting edge of global quality standards by employing pioneering research and globally renowned manufacturing expertise.

Concebida con el objetivo de desarrollar productos para mejorar vidas, Auhna es una colección de productos de diseñador para Baños & Estilo de vida que busca situarse a la vanguardia de los estándares de calidad mundiales aplicando investigación innovadora y la experiencia en fabricación mundialmente reconocida.

## QUALITY

श्रेष्ठता को हासिल करने की महत्वपूर्ण कुंजी गुणवत्ता है – इस बात का हमें पूरी तरह से अहसास है व हम यह गर्व से कह सकते हैं कि हम हर उत्पाद के कल्पना में जन्म लेने से उसके साकार रूप लेने तक हर कदम पर गुणवत्ता के हर पहलू का बहुत ही बारीकी से पालन करते हैं।

उपभोक्ताओं के दृष्टिकोण को मुख्य रखते हुए उत्पाद बनाने वाली सामग्री का बहुत ही सावधानी पूर्वक चयन किया जाता है व उत्पादन की सम्पूर्ण प्रक्रिया में कोई भी पहलू नजर अन्दाज नहीं किया जाता।

A measure of excellence, it is quality that is indispensable at each step along the way to creating products in which we can take great pride. From conception to production, a keen attention to detail is maintained to achieve the required standards for all the products.

A design approach with the user as the focal point, careful selection and sourcing of materials and effective controls on production are at the heart of ensuring we deliver quality. Almost equally important along the way are the softer elements of a sincere process & conducive culture which we strive for through integrity, discipline and education.

Una medida de la excelencia, la calidad es indispensable en cada paso del camino para crear productos de los cuales podemos estar muy orgullosos. Desde la idea hasta la producción, se mantiene una profunda atención a los detalles para lograr los estándares requeridos para todos los productos.

Un enfoque de diseño que tiene al cliente como el punto focal, la selección cuidadosa y el aprovisionamiento de los materiales, y controles eficaces sobre la producción son fundamentales en nuestra garantía de calidad. Casi la misma relevancia en nuestro camino tienen los elementos más delicados que son un proceso sincero y una cultura propicia que nos esforzamos por lograr a través de la integridad, disciplina y educación.

उपभोक्ता को मानसिक सन्तोष प्रदान करने की हमारी उत्सुकता, गुणवत्ता की गहन समझ व सराहना हमारी संस्कृति का अटूट अंग है जो कि सौन्दर्य व स्थायित्व के प्रतीक उत्पादों के निर्माण के लिए अति आवश्यक है।

औहना उत्पादों के प्रयोग के पीछे सुरक्षा की सम्पूर्ण गारंटी हमारी जिम्मेदारी है व उसमें पाए जाने वाली किसी भी दोष के लिए हम जवाब देह व उत्तरदायी है।

La motivación detrás de nuestra locura, nuestra visión, es el combustible que mantiene viva la llama. Nos provee las razones para nuestro esfuerzo, y en momentos en que el sol se oculta, es la única responsable de nuestra persistencia.

ऐसे उत्पादों का निर्माण जो न केवल जीवन स्तर को सुधारे अपितु हमारे विस्तार से हमारा सबन्ध जोड़े, अग्रणी अनुसंधान, उपभोक्ता केंद्रित रचना व नवीनतम निर्माण क्षमता का उपयोग करते हुए औहना को वैश्विक स्तर पर, जीवन एवं जीवन सुधार का पर्याय बनाना ही हमारा उद्देश्य है।
